PROGRESS Recruitment Campaign for the year 2012.

Dear Sir/Dear Madam,

For our graduates and early careers entry programme (PROGRESS), the EADS Group is currently seeking talented international profiles for challenging positions within Airbus, Astrium, Cassidian and Eurocopter. Candidates should either be graduates or professionals. Applicants should have an international exposure of at least 6 months spent outside their country of origin, be fluent in English and possibly speak one other EADS language and be fully mobile.

We kindly ask you to pass the enclosed email on to interested students looking for an employment in the second quarter of 2012. Your students may consult our website (www.eads.com/progress) which includes all necessary details about the programme including the entry requirements and also allows direct online applications.

They may also contact us under the following email address: progress@eads.net. Closing date for all applications will be February 12th, 2012 for a programme start on September 1st, 2012.

We shall remain at your disposal and for any further information you may require please feel free to contact David Golden (david.golden@eads.net) or Frank Jäger (frank.jaeger@eads.net).

Yours sincerely,

Karin Tegtmeier
